

## WHY USE A VIRTUAL OFFICE SERVICE?

PODIUM

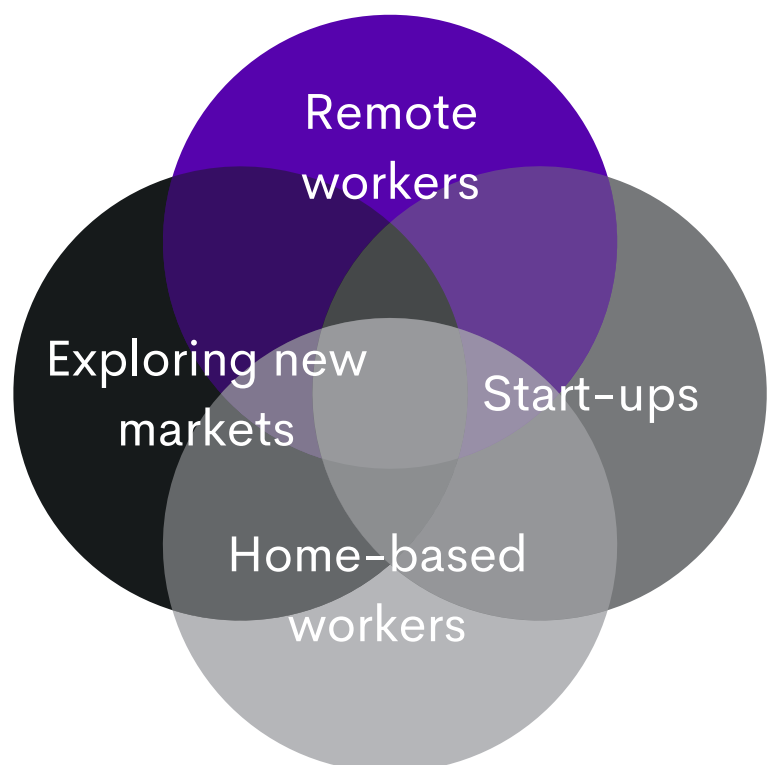

## A PROFESSIONAL BUSINESS PRESENCE.

A virtual office is not just about having a business address to put on your letterhead. It's an immediate and cost effective way to give your business a professional presence in one of our prime locations.

As well as standard virtual office services such as telephone answering and mail handling, there's access to hot desks, meeting rooms and business lounges; all the perks of a physical office, without the cost or commitment.

With flexible and remote working as the new "normal", even large businesses are using virtual office services to allow their workforce to adapt to the new ways of working.

## Start-ups and home-based businesses

- Keep your home address separate from your business
- Gives a credible business image to customers
- Make your business appear larger
- Calls always answered even when you are busy

## Remote Workers

- Hot desk, coworking and meeting room spaces available to give structure and face to face interaction
- Flexibility to work where and when suits you
- Networking and social events

## Exploring new markets

- Low financial risk
- Immediate market presence
- No long term commitment
